

Krismia Rohmanurfitria

Product Manager

👤 About me

Product Manager / Business Analyst with 5 years of experience leading requirements gathering, product documentation, and end-to-end feature delivery across enterprise applications. Bridges business stakeholders and technical teams to translate needs into user stories, acceptance criteria, and actionable backlogs, with a track record of supporting client validation and UAT sign-off for delivered solutions. Experienced in Agile/Scrum, Jira, Confluence, business process modeling, and cross-functional collaboration with Engineering, QA, Product, and UI/UX teams.

📁 Employment History

Product Manager at Bhumi Varta Technology, Tangerang

Jan 2024 — Present

- Requirement Gathering & Analysis
 - Led the data collection, analysis, and documentation of business requirements from clients and internal stakeholders through structured discussions to translate them into clear product backlogs and functional feature specifications.
- System Documentation
 - Drafted comprehensive system requirement specifications (equivalent to BRD, FRD, and Use Cases) in the form of User Stories, workflow diagrams, and clear acceptance criteria for developers and QA teams.
- Cross Functional Collaboration
 - Collaborated daily with Project Managers, QA, UI/UX Designers, and Software Engineers (FE, BE, DevOps) to ensure the high-quality and timely delivery of custom enterprise analytical features.
- Agile Framework & Tools
 - Managed the feature development lifecycle using Agile/Scrum methodologies and leveraged project management tools like Jira/Confluence to maintain project transparency and track progress.

Solution Specialist/Business Analyst at Bhumi Varta Technology, Tangerang

Aug 2023 — Nov 2024

- Stakeholder Management
 - Managed end to end client interactions for enterprise accounts, uncovering business pain points and mapping out relevant IT solutions and custom application features.
- Business to Technical Liaison
 - Acted as the primary bridge translating non-technical

business requirements from clients into actionable technical requirements for Data Ops, Data Engineers, and Software Developers.

- UAT & Validation Support
 - Supported the product quality assurance process prior to client delivery, ensuring that the developed software features accurately met 100% of the initial business needs.

Geographic Information Systems Technician at Bhumi Varta Technology, Tangerang

Feb 2023 — Jul 2023

- Process Improvement & Automation
 - Designing automated data validation tools using SQL and Python, significantly reducing manual workflows and optimizing data pipelines.
- Quality Control & Analysis
 - Acted as the primary quality control reviewer for system inputs, implementing advanced verification methods to ensure strict data standards for the core platform.

Geographic Information System Operator at Bhumi Varta Technology, Tangerang

Mar 2022 — Feb 2023

- Data Requirements & Validation
 - Validated complex, multi variable point of interest (POI) attributes (e.g., pricing, coordinates, business segmentation) against strict validation targets to maintain data integrity.
- Analytical Standardization
 - Ensured highly precise data entries, establishing a reliable baseline for subsequent data driven product analytics and system features.

Geospatial Staff at Grab Indonesia, Yogyakarta

Feb 2021 — Feb 2022

Data Management & Operations

- Handled large scale geospatial datasets, executing precise spatial data processing to support region specific operational logic and mapping accuracy.

Geo-Operator at Kementerian ATR BPN Kulon Progo, Yogyakarta

Dec 2020 — Jan 2021

Technical Documentation & Processing

- Managed and processed foundational land data documents, executing spatial data organization in alignment with strict institutional guidelines.

Internship at Pusat Hidrografi dan Oseanografi TNI AL, Jakarta

Feb 2020 — Apr 2020

Database Maintenance

- Contributed to the Bathymetry Database subdivision, assisting in database organization, entry validation, and hydrographic data structuring.

Assistant Surveyor at Universitas Gadjah Mada, Yogyakarta

Dec 2017 — Nov 2019

Field Requirement Gathering

- Collected, structured, and verified environmental and biophysical field data, contributing precise groundtruth baselines to broader mapping research projects.

Education

Associate Degree of Remote Sensing & GIS, Universitas Gadjah Mada, Yogyakarta

Aug 2017 — Aug 2020

Graduated with high honors (GPA: 3.58 / 4.00). Participated in the Student Creativity Program and built foundational technical skills in spatial modeling and database structures.
